**Re: Proposed Permit - Air Title V Facility Permit Renewal 2, DEC ID: 2-6101-00025/00057
Facility: Newtown Creek Wastewater Treatment Plant, 329-69 Greenpoint Avenue,
Brooklyn, NY 11222**

Dear Ms. Chan:

The Proposed Permit for the above referenced facility's Title V Facility Permit is available for the required EPA 45-day review period. The attached Proposed Permit is available on DEC's webpage, Access to DEC Air permits, <http://www.dec.ny.gov/chemical/32249.html>.

The Department's June 26, 2019 Notice of Complete Application was published in a local newspaper and the DEC's Environmental Notice Bulletin on June 28, 2019, providing the required 30-day public notice period. This notice referenced the availability of the Draft Permit. The comment period expired on July 28, 2019. No comments were received. The Proposed Permit does not incorporate any revisions to the Draft Permit.

The Department will not issue the Final Permit if EPA objects to its issuance within 45 days of receipt of the Proposed Permit and all necessary supporting information. We understand that the official review period start and end dates are recorded in your Title V Operating Permits Database (http://www.epa.gov/region02/air/permit/title_v_database.htm).

If you have any technical questions on the Proposed Permit, please contact Thomas John in the NYSDEC Division of Air Resources at (718) 482-4993 or me at (718) 482-4062 for administrative questions. Please provide your comments to my attention on or before the review period end date.

Sincerely,

Denise Grattan
Environmental Analyst II
